

INVITATION

INNOVATE for a Safer World

Dear Sir/Madam,

We are delighted to invite you to join us at MWC26 Barcelona, taking place from 2–5 March 2026. This is a unique opportunity to explore our latest mission critical broadband solutions that enable cities to operate more safely, efficiently, and intelligently.

At the Hytera booth, you can experience the **AI-powered Enforcement solution**, delivering end-to-end workflows with multi-source video capture, intelligent evidence management, and edge AI that prioritizes alerts. Discover the **3GPP MCX solution**, offering resilient, standards-based broadband communications that support group calls and interoperable networks. Explore the **Hytera HyTalk solution**, enabling secure push-to-talk, streamlined dispatch, and location-aware patrol workflows with integrated incident reporting. In addition, our **2G/4G/5G RAN solution** provides a carrier-grade architecture, ensuring high capacity, seamless continuity, and superior performance for public and private operators.

In parallel with the exhibition, we will host a **three-day online webinar series**, where our experts will share insights on deployment, integration, and standards-driven strategies. We will also introduce our latest innovations, including the **wearable MCX radio** and **450MHz MCX smart device**, offering attendees an in-depth look at the practical applications of our newest technologies in mission critical operations.

We warmly invite you to visit our booth (**Hall 6, 6F50**) at Fira Gran Via, Barcelona, and explore how converged networks and trusted intelligence make safe, connected cities possible.

Warm regards,
Hytera Communications Corporation Limited

March 2 - 5, 2026 Barcelona, Spain Hall 6, 6F50
